

Town of Greater Napanee Council Highlights

Regular Session of Council for April 11, 2023

Backyard Poultry

Council reviewed community feedback requesting a by-law change to allow urban backyard poultry. Council decided to defer the matter until fall of 2023 due to concerns around high transmission rates of avian flu at this time and potential increased safety risks. The topic will be revisited at one of the meetings in the fall. Residents are welcome to continue to submit feedback to the Clerk's department on this subject in the interim.

Services Fees By-law

New rates for various administrative and facility rental fees were adopted, and will go into effect on May 1, 2023. Visit the [by-law](#) or the Town's website for full details.

2022 Year to Date Financial Operational Results

Council received a [report](#) on the 2022 year end operating budget variance. The 2022 capital budget variance report will be presented at the April 25th meeting.

Noise By-law

Council reviewed the community feedback received to date on the proposed noise by-law changes. Staff will be bringing a revised draft by-law to a future meeting for Council's consideration.

Town Participation in Giveaway Day

The Town of Greater Napanee will be participating in this year's Giveaway Day by opening the doors of Town Hall (124 John Street) and 12 Market Square. The main floor of each building will be open, for residents to look through office furniture deemed as surplus.

Photos of some of the available items will be posted on the [Town Facebook page](#) leading up to the event. The event will begin at 10:00 a.m. on Saturday, April 22, 2023 and run until 3:00 p.m.

Raw Water Reservoir Liner Replacement Update

Council awarded Layfield Canada Ltd. as the sole supplier and installer of a new raw water reservoir liner for the Napanee Water Treatment System. An additional \$63,040 will be used from utilities capital reserves to purchase an upgraded liner. The capital project was previously approved by Council as part of the 2023 Utilities Budget. Once completed the raw water reservoir will hold 18,000 m³ of raw water. The project is to be completed in the summer of 2023.

Next Regular Session of Council: Tuesday, April 25, 2023

This meeting will be live streamed via our YouTube Channel
